

DO21B

Radio/Television
reporter's microphone

BENEFITS

- Sturdiness of the outer casing
- Low sensitivity to wind
- Low sensitivity to shock and rubbing during manipulations
- Resistant to extreme weather conditions
-40 ° C to +70 ° C

APPLICATIONS

The LEM microphone **DO21B** is, **above all, the microphone for outdoor report**. Used on all reports of the french television or radio **for more than 50 years**, it has the advantage of being virtually indestructible.

Placed under the chin of a speaker, it guarantees the right rendering between the direct sound recording and the ambient one. It is little sensitive to plosives and sibilants.

This moving coil dynamic microphone is fitted with an unalterable polyester film membrane. Its case is designed to withstand shocks and provides insulation to the hands, in report use.

Multipurpose microphone, it can be manipulated by anyone, including in extreme weather conditions.

D021B

FEATURES

Microphone	dynamic
Directivity	omnidirectionnal
Sensitivity	1.3 mV/Pa (± 3 dB) at 1kHz
Impedance	200 Ω at 1kHz ($\pm 20\%$)
Band width	20 - 18000 Hz
Artificial voice	B&K 4219
Weight	165 g
Length	135 mm
Width	40 mm
Temperature of use	-40°C à +70°C
Storage temperature	-40°C à +70°C
